

To whom it may concern, REF: 2:13-cv-560-RSL

MAY 22 2013

I received notice that activity records were being subpoenaed and immediately contacted the law firm in question (The Vandermay Law Firm) they advised me that they were going to send information about what the reasoning for the subpoena was. I still have not received any contact or information from them about this matter.

I have never received any sort of notice, cease and desist or notification that anything was happening on my network. I had a guest network which I have since turned off and changed the password to my router.

After seeing the delay in response from The Vandermay Law firm I did some research on the notification and saw that the subpoena has to do with a movie which I have never heard of nor have seen and especially not downloaded. I have a subscription to Netflix as well as a few other movie services that allow streaming so I have no need of downloading movies. Also I am a full time student and a full time employee, I am not home the majority of the time. The time in reference to the subpoena I was at my girlfriend's house using her internet to do my homework since the century link connection at my house was unusable.

I request that you deny The Vanderman Law Firms subpoena to procure my records as I have done nothing wrong, they are attempting a lawsuit against me for something I have never seen nor do I have any interest in seeing. I hope that the court will respect my request and allow me my internet privacy as I have not done as accused.
